Rationale:

Discussion on the following:

Handouts

> 1115 Transformation Waiver Update:

- Demonstration Year 9, round 2 payment should be received during the last week in January.
- o Due to continuation of COVID related emergency federal enhanced matching rate, the funds will be around \$200,000 more than originally budgeted.
- CBHC Update: We received state contract awarding us CCBHC status. Certification is good for 3 years.

➤ COVID-19:

- State and federal government again extended the current public health national emergency for an additional 90-day period.
- HHSC extended current state waivers that allow for delivering both mental health and IDD services through telephone and tele-video contact.
- Rise In positive cases throughout our region during last month.
- Some access of staff vaccination slots through Terrell State Hospital.
- State is prioritizing distribution through larger vaccination hubs, which are limited in our area; however, some staff have received the vaccination through their primary physician.

> Texas Council Update:

- The Health Opportunities Workgroup (HOW) and the Executive Directors Consortium met last week. Start of legislative session, TX. Council is currently tracking numerous bills filed.
- HHSC requested request a one-year extension for the 1115 Waiver DSRIP program. Also requested a multiyear extension for the full 1115 Transformation Waiver. While no response has been received regarding continuing DSRIP, the TX. Council did report last week on the full waiver.
 - One of the item: Texas received approval for a new uncompensated care program to help offset costs associated with providing care, including behavioral health, immunizations, chronic disease prevention, and other

prevention services, for uninsured individuals. This program will begin in the fall of 2021.

> FY'21 Status of State Performance Contracts Updates:

No changes currently. All targets and measures are still being waived due to the COVID emergency.

AGENDA Item No: 02.06.21 Executive Director's Report:

Recommended Board Action: None: For Information Only

Rational:

Executive Director Report:

- 1. 1115 Transformation Waiver and Other Board Updates:
 - Our Demonstration Year 9, round 2 payment was received as expected at the end of January. The next reporting period will be in April
- 2. February Weather Event Summary:.

The mid-February winter storm has left a number of our sites with water related damage due to burst pipes. In addition, we were closed in most locations for the entire week as schools and county offices also dealt with the storm and power outages. We will be giving a status update at the Board meeting.

3 COVID – 19 Response:

State and federal governments again extended the current public health national emergency for an additional 90-day period. This extension will extend through April 2021 unless renewed again. HHSC has also extended current state waivers that allow for delivering both mental health and IDD services through telephone and tele-video contact.

4. Texas Council Update:

Our monthly TX. Council Health Opportunities Workgroup (HOW) and the Executive Directors Consortium calls were cancelled due to the winter storm last week. I will give an update on the roll out of the two CMHC specific 1115 Waiver DSRIP program replacements at our next meeting.

- 5. FY-21 Status of State Performance Contracts Updates:
 - HHSC FY-21 Contract Status: No changes currently. All targets and measures are still being waived due to the COVID emergency.
- 6. East Texas Behavioral Health Network (ETBHN)

The Regional Oversight Committee (ROC) met last week to review the ETBHN pharmacy and telemedicine programs. Currently both programs are operating with a moderate excess revenue over expenses. Recruitment of additional telemedicine providers is a priority in order to continue meeting our external contract obligations with external Community Centers.

Glen Oaks Hospital & Texoma Medical Center (TMC Behavioral Health) - UHS of Delaware, Inc. Incident Report for January 2021 Payments

During the end of January, American National Bank, in Terrell alerted us to a potential fraud incident with one of our contract vendors that resulted in payments to a an entity which had acquired false email credentials. The suspect was able to impersonate a staff contact from the financial department of the private hospitals we use as a contract vendor and request a change to their bank routing information. The following is a synopsis of this incident.

1. Description of the Incident

On January 26, 2021, a representative our American National Bank contacted our Accounts Payable department concerning a suspicious transaction regarding a vendor payment. It was determined that a payment made on January 22 was made to an "imposter" bank account established at the request of a person posing as our vendor representative. A/P and the bank were able to reverse and recover the payment of \$10,800 and remit it properly to the correct bank and associated account.

2. Sequence of Events

Further investigation of the incident indicated an initial contact by the imposter to one of our staff accustomed to these transactions. Initially the imposter requested a change from current arrangement of payment by check to an Automated Clearing House (ACH), and provided instructions as to the bank account and routing number. The reason given related to circumstances associated with the COVID crisis. The request was relayed to Accounts Payable who replied to the email requesting certain verification information. The imposter then provided a letter from a bank. A/P then verified the existence of the new account name UHS, and made the necessary changes.

Initially three payments were made between December 18 and December 20 to two vendors both associated with UHS of Delaware, Inc. Upon verification request from the bank, our A/P staff confirmed what we believed was valid documentation (bank letter) supporting the changes. The sum of those three checks is: \$58,710.

On January 4, we were asked to again change the bank, account and routing numbers to a different bank because the first bank was "under audit". The same process of verification ensued. Two additional payments were made in the amount of \$25,800.

The total paid and unaccounted for amounts to \$84,520.

3. Response to Date

Once we discovered the fraud on January 26, American National Bank opened a case with their fraud investigation department. The intent was/is to recover these funds if possible. Also, Lakes Regional A/P staff began attempting to notify our verified historical contact at both of the organizations that we have used for a number of years and their supervisors. We have been able to speak to only two representative to date. We have notified our Cyber insurance carrier and brought them up to date on the incident. It is their position as it is ours that this is a data breech that took place on the vendor side. That is our impression as well. A formal letter to notify and inform the executive management of both entities and their parent organization has been drafted and will be issued by certified mail.

4. Modified Procedures

Since January 26, Lakes Regional has generated a draft-modified procedure to more specifically address this sort of request whether by a vendor or an employee in the case of payroll. We believe that sufficient controls are now in place. Any change request for payroll require that the requesting staff be contacted "in person" to verify any banking changes. In the case of Accounts Payable vendor requests, such changes are made by one designated staff person. The A/P person charged with maintaining critical bank account information will verify

such requests by personal contact with the contact listed in the Authorized Vendor Listing as the official point of contact. The process of a reply to an email request will no longer be employed. Also, since such "changes" in the Vendor file are extremely rare, these changes will require approval by staff at least one level higher that the staff that will implement the change. The changes remain in draft form as we anticipate further guidance from the Fraud Investigation Team at ANB.

Headcount

We finished January with a total of 455.75 authorized FTEs and 396 employees. We filled 10 positions, nine of which were new hires. We had four separations, three of which were voluntary. Reasons cited for separations include fear of catching COVID; quit in lieu of progressive discipline; and job abandonment. The single involuntary separation was neutral due to an extended medical absence.

Compensation & Benefits

During January, 30 employees reported possible exposure and testing for COVID. Thirteen of these individuals tested positive; fortunately, none required hospitalization. Five administrative staff were granted 219 hours of emergency paid sick leave through the FFCRA program. Eleven direct care staff were granted 672 hours of paid sick leave from the emergency COVID-19 Sick Leave Pool.

We saw an uptick in health claims for January. Our loss ratio was 79.1% for the month and is 76.4% YTD. We now have four large claims, but only one has exceeded the individual stop-loss limit.
